MOB DRIVES NEGROES FROM JOPLIN HOMES.

Thomas Gilyard Lynched for Murder of Policeman Leslie.

Sensational Capture and Removal from Jail of the Prisoner—Struggle of Crowd at the Rope's End for and Against Execution—Frenzied Rush Through City's Streets—Helpless Officials are Cheered.

(BY THE ASSOCIATED PRESS—P.M.)

JOPLIN (Mo.) April 15.—An infuriated mob took a tramp negro from the City Jail tonight and hanged him to a telegraph pole at the corner of Second and Wall streets, two blocks from the jail. The negro, who, it was subsequently learned, was Thomas Gilyard, had been charged with having murdered Policeman Leslie. Leslie was shot dead last night in the Kansas City Southern Railway yard while endeavoring to arrest several negroes suspected of theft. Leslie had ordered the negroes, who had taken refuge in a box car, to surrender, and when they failed to do so he shot several shots at the car. During the shooting a negro slipped from the car, and coming up behind the policeman, shot him through the head.

About 3 o'clock this afternoon Leslie Fullerton, aged 21, located the fugitive in a slaughterhouse just east of Joplin. The negro was armed with a rifle and defied arrest. Fullerton slipped into the structure unobserved and crept up behind the negro. Suddenly he sprang at the unsuspecting fugitive, and before resistance could be made he had the negro on his back with a knife at his throat. The negro then rendered his rifle, and, pointing the weapon at him, Fullerton marched him out of the building. With the assistance of another man the negro was brought to Joplin and placed in jail.

News of the capture spread rapidly, and the jail was speedily surrounded by hundreds of people. There were cries of "Lynch him!" and City Attorney Decker mounted the jail steps and made a strong plea in behalf of law and order. This served to temporarily soothe the mob, but within a few minutes the infuriated men had gained entrance to the jail and secured the tramping negro. As he was dragged forth, City Attorney Decker again interposed, and urged that the negro be given a trial. For a half hour the people listened to him with the negro in his custody. At one time it seemed that the City Attorney would win, as members of the mob began dispersing, but suddenly a rush was made for the spot where the negro was being held, and he was dragged back into the jail, a rope fastened around his neck.

Every effort was made to prevent entrance of the mob, but without avail, and within a few minutes the infuriated men had gained entrance to the jail and secured the tramping negro. As he was dragged forth, City Attorney Decker again interposed, and urged that the negro be given a trial. For a half hour the people listened to him with the negro in his custody. At one time it seemed that the City Attorney would win, as members of the mob began dispersing, but suddenly a rush was made for the spot where the negro was being held, and he was dragged back into the jail, a rope fastened around his neck.

For some moments it was a veritable tug of war, but reinforcements from the free end of the rope proved the stronger, and the negro, despite his protestations of innocence, was finally swung into the air and strangled to death, while shouts of satisfaction went up from the mob.

The negro was a stranger in Joplin. As soon as he was dead, the mob dispersed, and later the body was taken in charge by the coroner.

The lynching served only to temporarily satisfy the indignation of the mob, and later tonight hundreds of men again assembled and rioted through the negro section of the city, burning houses and scaring negroes, and finally drove every negro from the confines of Joplin. The police were powerless.

The first act of the mob after hanging the negro was to demand the release from jail of a local character known as "Hickory Bill," who was under arrest on the charge of assaulting a negro. It was hoped that this would appease the mob, the man was set free. But the mob did not disperse. A rush was made through Main street and every negro was frightened out of the street and fled to the northern part of the city, where the colored population resides. In this way the negroes were driven from Joplin.

CINBAR (Mont.) April 15.—The President is somewhere in Yellowstone Park between Some Butte and Yancey's. He probably will come into the post. Thursday he will start for the Geyser country.

An incident that occurred in the park today shows how closely every approach to the President is guarded. An employe of the Yellowstone Park Transportation Company was discovered by a member of the Third Cavalry about five miles from where the President made his camp. The man probably was there on business, but the soldier asked no questions, and would listen to no explanation. He placed the employe under arrest, and marched him to the post headquarters at the point of a pistol. There the man disclosed his identity, and was released.

OUR LITTLE NEIGHBOR.

Cuba Puts Trust in Uncle Samuel.

Secretary Moody and Party Return from the Island Delighted With Conditions There.

(BY DIRECT WIRE TO THE TIMES.)

WASHINGTON, April 15.—[Exclusive Dispatch.] Secretary Moody and the members of the party which accompanied him on his trip to the West Indies, are enthusiastic in their description of the advance of Cuba and Porto Rico since the war with Spain and in their predictions of what the future has in store for the islands. The party was especially impressed with what they saw in Cuba. Mr. Cannon, the Speaker-to-be of the House, said:

"At one time I thought we had made a mistake in adopting the Teller amendment to the Cuban resolution, pledging this government never forcibly to acquire Cuba. I thought it a mistake to have made any pledge regarding territory over which we had to go to war with another nation. We have remedied it with the Platt amendment, which has been accepted by Cuba and under which the new government provides for local government and leaves its external relations in our hands."

"Cuba could not support a navy, and has no use for one. She has no army, and little use for one. The United States will have naval stations on the north and south coasts of Cuba, and these will guarantee protection to the island. Our army can be called upon to see that the Platt amendment is carried out. The Cuban government we are able to see that there are created no serious international complications to call for the interference of other nations."

"It seems to me that the Cuban government is started on good lines, and it is in good hands. President Palma is an able and discreet man. He is making a wise Executive for the Cuban people. There are able men in the Cuban Congress, and they have shown good judgment, patriotism and conservatism in their first legislative session. I see no reason to predict anything but success for this new Cuban government."

"Are they satisfied with a promise of reciprocity with the United States?" Mr. Cannon was asked.

"They seem to be," he replied. "They seem to trust this government implicitly, and they are not asking charity in this reciprocity question."

THESE SMUGGLING CASES. OFFICERS HAVE PAID PENALTY. (BY THE ASSOCIATED PRESS—P.M.) SAN JUAN (Porto Rico) April 15.—[By Wire.] The grand jury today called many witnesses in the smuggling cases in which officers of the United States navy and other prominent men are involved, and secured from the court who presided at the formal hearings a copy of the testimony taken.

The prisoners who are confined in the penitentiary for smuggling have presented a petition requesting that they be pardoned and released unless others guilty of the same offense are punished.

Two more officials were arrested at Mayaguez today in connection with the grand jury. The ball of Superintendent of Public Works Baez of Mayaguez, arrested April 8, charged with frauds amounting from \$10,000 to \$20,000, has been fixed at \$35,000. Bondsman were not secured.

The Insular police force sent on April 12 by Gov. Hunt to take possession of Mayaguez and supplant the municipal police there for the greater protection of good government, has not reached Mayaguez, owing to the bad state of the roads, and will be unable to take possession of that city until tomorrow. Probably many arrests will follow.

DEPARTMENT'S ATTITUDE. (BY THE ASSOCIATED PRESS—P.M.) WASHINGTON, April 15.—The attention of the officials of the Department of Justice was called to the published dispatch from San Juan, Porto Rico, to the effect that the United States Attorney there had declined to prosecute criminally a number of army and navy officers for alleged smuggling and explained his action by the statement that he was acting under instructions from Washington. The incident was in a measure explained by the statement that the Department of Justice today received a dispatch from the United States Attorney at San Juan, stating that the judge having jurisdiction of the smuggling cases had instructed the grand jury to proceed with the investigation, notwithstanding the order of the Department of Justice to the United States Attorney not to prosecute them.

"The United States Attorney asked for further instructions, to which the department today sent the following reply: 'Your duty is to obey my instructions to dismiss pending smuggling cases and present no new cases until otherwise directed. Considerations of

CHARITIES TOO COSTLY. Chicago's Methods and Inability to Help Sick Children Scored. (BY DIRECT WIRE TO THE TIMES.) CHICAGO, April 15.—[Exclusive Dispatch.] Sharp criticism of the expense of conducting Chicago's charities and equally severe condemnation of the city's inadequate facilities for caring for sick children were meted out with unsparring hand by Dr. John B. Murphy at a conference of the Children's Hospital Society, held this afternoon before the Chicago Women's Club.

"From 30 to 40 per cent. of the money contributed to Chicago organizations for charity purposes is spent on salaries and expenses," said Dr. Murphy. "One well-known institution which receives \$300,000 a year spends \$119,000 of this sum in salaries. Another, which has contributions amounting to \$116,000, spends \$44,000 for salaries and administration expenses. Others which receive respectively \$77,000 and \$65,000 pay out for these purposes \$17,000 and \$20,000. The sole institution which appears to be an exception to this rule is the United Hebrew Charities."

BREWERS NOT IN SPIRITS.

In Doubt About Prospects in Santa Monica.

May Go to Supervisors for an Ocean Park License.

Still There's a Chance to Guess What the Trustees Will Do.

It looks as though there is a laugh coming somewhere out of Santa Monica. A couple of days ago it was current report that the "saloon element" of the city was very happy over the result of the city passed from the sixth into the fifth class; that as a result of the passage of the new Board of Trustees the saloon men had come into a position where they could secure more license if they wanted them; that the saloon element at the same time had a lessened interest in the anti-saloon element, and on Monday the anti-saloon element secured its gratification over the election by a sort of parade through the streets of the little city by the sea, and it was generally claimed by the good people that the new Board of Trustees was so composed that there would be no more action in favor of the liquor dispensers in Santa Monica during the next four years.

And there you are. Things simmer down a few days after election, and the matters which previously looked "every-way-way" can be classified and more or less reliably pigeonholed. The claim that the liquor issue was merely dragged into the Santa Monica campaign at the last moment as a sort of subterfuge to hide from certain voters the real stakes, looks less credible now than ever. If people who are in a position to know, and who speak as guardedly, are now telling the truth, the future conduct of the newly elected Board of Trustees will bear distinctly on the saloon question.

"Why did you fellows inject that fake temperance movement into the campaign?" "Well, why did you fellows inject that fake trolley franchise into the campaign?" This question and rejoinder were exchanged between two prominent Santa Monica citizens the day after the election. These trustee candidates accused of merely opposing the Abbot-Kinney road are just as earnest today in their denials as they were yesterday. The Kinney road into Santa Monica as they were before their election—that is, as they are now. A. F. Johnston and H. X. Johnston, and at the same time, are still as firm on the saloon question. The statement has been repeatedly made, and not denied by them, that Foster and Steele were expected to secure, if elected, either the transfer of the Hotel Holborn license to the Maier & Zobein Brewing Company or a new license for that concern, and Joe Maier is creditably said as having stated recently that the Park's phenomenal growth would demand this transference or the issuance of a new license.

Yesterday afternoon George Zobein was asked by a Times representative: "How are the brewery interests pleased with the result of the Santa Monica election?" "Well," he replied, hesitatingly, "we are not altogether pleased." "How many and which of the new Trustees do you expect to be favorable to your interests?" "I—well, we are not ready to make a statement as to that just yet," was Zobein's reply. He refused to enter into a further discussion of the subject.

During the campaign the anti-saloon people claimed, and it was not denied, that the Ocean Park Pavilion lease (for ten years, conditional) to Maier & Zobein hinged on the fulfillment of the promise that the license therefor would be forthcoming from the new Board of Trustees.

Johnston and Goetz, two of the newly-elected Trustees, declare that they will grant all possible concessions to the Maier & Zobein brewery company, and while not posing as temperance men, they will vote for the issuance of no more licenses in Santa Monica or in Ocean Park "without a specific demand from the people." It is claimed that in this stand, Johnston and Goetz will be supported by T. H. Johnston (President, reflected). "If this be correct, the other two members, Vawter and Steele, will be a minority." In support of the assertion that Dudley will stand with Johnston and Goetz, it is repeated snubbing by Vawter and Steele, or the repeated snubbing by Dudley, that was given him by Johnston and Steele during the campaign last past.

WOMEN'S CLUBS. Ruskin Art Club.

"Landscape Art—Past and Present," was the subject considered yesterday by the Ruskin Art Club under the leadership of Mrs. W. J. Washburn and Mrs. J. B. Owens, and was the central thought in a programme of great interest.

Perhaps the paper of most importance was that of Mrs. L. L. Hibbard, who gave a review of the "Life of Charles Eliot, the Landscape Architect," that splendid tribute to the genius written by President Eliot of Harvard College. From a brief sketch of the peculiarly happy environment of the architect's early life which laid such broad foundation for his later success, the paper passed rapidly over the preparatory period of European travel and study to the time when he took up his life work, the profession of landscape gardening, at that time hardly recognized in the United States and when Frederick Law Olmsted was at the head of the profession in this country.

Differentiating between the work of the landscape architect and the landscape gardener, he said: "As I understand it, the landscape architect is a visible thing for man's convenience and for man's delight is architecture. The building of convenient and beautiful structures is his art, but a part of the art of architecture. The arranging of these structures in street, in neighborhood, on sea coasts, in the valleys, on the hills, the careful adjustment of the structure to its site and its landscape, the devising of ways and roads so that they may be impressive either through order and formality, or charm through their subordination to the landscape conditions, the development of appropriate beauty in the surroundings of buildings, all this is, or ought to be, at least, one-half of the art and profession of architecture. This is the landscape architect's part, for the field is so wide that it can hardly be comprehended by one man, and the two professions seem necessary, each approaching and helping the other. Landscape gardening is that part of the landscape architect's labors which is devoted to development of the formal or natural beauty by means of removing or setting out plants. As a matter of fact, I find it but a secondary part of the profession."

From the very first Mr. Eliot's services were in demand, and from the laying out of private places, city parks and suburban tracts grew his study of the problem of how to secure for a town or city an adequate number of public squares, gardens and parks, and his work expanded until in conjunction with the Appalachian Club, the directorate of the Arnold Arboretum he was successful in instituting the extensive Metropolitan Park system of Boston, which has a radius of eleven miles and will forever be his name's best monument. An early death brought Mr. Eliot's work to a close, after only ten years, but he left behind him an astonishing number of good things very difficult of attainment.

CRIME OF JEALOUS COOK. DES MOINES (Iowa) April 15.—Arthur Perry, a cook, followed Mrs. Louise Bruce, wife of W. C. Bruce of Sioux City, into a restaurant here today, and shot her three times, one bullet striking her in the mouth, then shot himself in the head. Perry died shortly in a hospital, where it was stated her condition was critical. The woman said she had come here from Sioux City two years ago, having separated from her husband, and that she and Perry had been living together. Perry was jealous.

Mrs. W. H. Housh presented an interesting paper on "The City Beautiful," in which she prophesied that the time will come when laws will be made to control the height of buildings, the distance at which they shall be placed from the sidewalk, these to be governed by the width of the street, keeping all things in true proportion and harmony. When there will be a municipal art commission vested with authority in such matters, as well as in the acceptance or rejection of the architect's plans. "Then will all the people come to realize, as a few of us now, that there is always a moral right as well as a legal one, and that a person has no right to infringe upon the comfort of his neighbors or to offend good taste. Then will there be made a clear distinction between that which means liberty and that which means license." The speaker also advocated the appointment of a paid commission to supervise civic art.

Mrs. Owens read a short paper treating of the art of landscape gardening in the past, and Mrs. D. C. Barber gave a sketch of Frederick Law Olmsted and his work. Miss Wadsworth showed numbers of "The Calendar," published in St. Paul by the Arts and Crafts Association, and the Women's Civic League of that city, the subject matter and illustrations of which were palpable hits on the municipal government, and were keenly enjoyed. Mrs. J. D. Gibbs spoke of the work of the American League of Civic Improvement.

Later he took an inventory, and found that several pieces of fine cloth, fifty yards or more, worth at least \$1 per yard, and 4500 cigars worth \$40 per 1000, had been stolen. The exact time of the burglary is not known, but it was committed since Sunday night.

## Events at Woodbury.

Francis Murphy talked to the students of Woodbury Business College yesterday, winning many friends with his jovial, amusing and sensible remarks. At the close of his talk he and his wife were showered with flowers, and the venerable temperance apostle was given a unanimous vote of thanks for his presence. Many of the students took the blue ribbon. This evening the girls of the basketball team will give a social to their friends, and tomorrow night a free illustrated lecture on Arizona and New Mexico will be given in the college hall.

## Molten Lead in His Eye.

S. Agnew, aged 16, whose home is at No. 1322 Maple avenue, sustained an injury which caused excruciating pain yesterday while at work at No. 314 South Main street. He is learning the electrician's trade, and was using some molten lead when a splash from the vessel in which the hot metal was contained lodged a small particle in his left eye. Other particles struck his face and neck and wherever the lead touched it burned. Agnew was taken to the Receiving Hospital, where his injuries were dressed. Fortunately the lead did not strike his eye in such a manner as to destroy the sight.

## Wreck Near Arcade Depot.

A wreck occurred on the main line of the Southern Pacific Railroad yesterday just at the entrance to the Arcade Depot which so blocked the tracks that no train could pass for more than an hour. A train carrying stone for the San Pedro breakwater was being pulled through the yards, when one of the cars jumped a switch and started down another track. This caused two cars to leave the main line, and before the heavy train could be stopped several of the cars were derailed, and some stood at right angles across the tracks.

## Dr. Karl B. Sweet Talks.

Before an audience of 125 working boys and young men, at the Young Men's Christian Association, Dr. Sweet gave last evening an interesting and suggestive talk on "First Aids in Case of Accidents." This talk was illustrated by the liberal use of bandages and other applications. The various methods of resuscitating drowned persons were demonstrated in an effective way by using a boy to illustrate. These practical talks will continue on each Wednesday for five weeks. George W. Parsons speaks next, on "Mining Experiences."

## Contractors Ridicule It.

Contractors yesterday were having hearty laughs over a foolish fake in yesterday's "Herald," the result of that sheet's zeal in pandering to the Social list-union-boycott crowd. The "Herald" stated that during the session of the Master Builders' Association, "some of the participants got into so heated an argument that they had to go out into the hall to cool off." The fable continued: "About 5 o'clock the meeting adjourned and the members hurried over to the Potomac Block, where they were before a notary and were sworn to some agreement. They insisted that it was not to divulge what had taken place during the afternoon session." The "Herald" report was either the work of one of its imaginative "cubs" or faking editors. The meeting of the builders was private, but there was no heated discussion, and informed reporters were plainly informed that nothing important or unusual had been done. As an indication of how seriously the so-called "strike" of the union building trades is considered, half a dozen of the members present stated yesterday that the "strike" was not so much as mentioned in the meeting, the entire discussion being over the establishment of the association's permanent headquarters, with club features. It was stated in the meeting that there were several rooms that might prove suitable for rent in the Potomac Block, and at the close several of the members proceeded there to view the quarters and report. No noisiness was visited and no agreement thought of.

## FOOT CRUSHED OFF.

Ed. Carr Crippled for Life near First and Spring Streets in Attempt to Board a Moving Car.

Edward Carr, a butcher whose home is at No. 217 North Avenue 21, and who is employed at the Pioneer meat store, No. 2114 Downey avenue, was crippled for life shortly before 10 o'clock last night by being run over by a street car. The accident happened near the corner of First and Spring streets and was caused by the attempt of the victim, who had been drinking, to board a car while it was in motion. The wheels passed over his right foot at the instep, crushing the bones and flesh in such a manner that it was necessary to amputate the foot at the ankle. The operation was performed at the Receiving Hospital by Police Surgeon Smith, assisted by Drs. Hutchinson, Dillon and Bonyne. Carr is 27 years of age and married.

## THE PUBLIC SERVICE—OFFICIAL DOINGS.

## SUMMARY OF THE DAY.

Mayor Snyder declared yesterday that the discussion of the civil service regulations will end amicably and the controversy will be speedily concluded. The plans for the proposed isolation hospital reached the Building Committee yesterday.

Arguments are still in progress in the Melrose murder trial.

Attorney Noble of Boston has arrived to take up the cudgels for Mrs. Barnes of Ocean Park.

In the Police Court yesterday B. Nease was found guilty of retailing liquor from his "wholesale" establishment.

## AT THE CITY HALL.

## MAYOR STATES VIEWS ON CIVIL SERVICE.

## DECLARES DISCUSSION WILL END AMICABLY.

No Disposition on the Part of Police Commission to Urge the Powers or Ignore the Rights of the Civil Service Board, Says Snyder.

Deep interest in the Civil Service controversy begun by Councilman Davenport is manifested by the hundreds of employees in the public service. Little else was discussed in the offices yesterday. It is beginning to dawn upon the men in all departments that the Civil Service Commission is going to play an important role in city affairs.

There is every indication that an amicable adjustment of the pending controversy will be effected at once. The misunderstandings that have arisen between the Police, Fire, Park and Civil Service Commissions will be removed as soon as a clear interpretation can be placed on the Civil Service regulations.

By discriminating judges who watch the trend of events closely the reply to Councilman Davenport made by Chairman O'Melveny of the Civil Service Commission at Tuesday's session is regarded as a "marvel of diplomacy." Without arousing antagonisms the commissioner gave everyone politely to understand that the board must not

papers that I will be compelled to pay the salary of J. J. Hopper, park carpenter, who was discharged. I have not yet prepared to divide my salary with him. Although I knew nothing about it at the time, I have found out that Hopper was dismissed because there was not work for him to do. No attempt has been made to appoint his successor. Hopper is said to be incompetent and I guess it would not be difficult for the Park Commission to drop him from the pay roll. As far as the other men are concerned they have been on probation and can be dismissed simply by notifying the Civil Service Commission that their services are not satisfactory. On the whole I don't believe it best for any one to expect the continued employment of these men by the city.

J. Halsey, the discharged park foreman, was on a still hunt for Park Superintendent Legrand yesterday to inform him that he was ready to report for duty. This action is expected to lay the foundation for a hearing before the Civil Service Commission.

The plans for the Civil Service Commission on the 25th inst. are being prosecuted with vigor and a large class of candidates for the several positions is expected.

## ASK FOR HOSPITAL.

## PLANS BEFORE COMMITTEE.

For many years the health authorities of the city have been trying to secure an appropriation for the construction of a suitable detention hospital. Time and again preliminary action has been taken by the Council, but in the end nothing has come of the agitation.

Yesterday a complete set of plans for a detention hospital modeled on the detached cottage plans reached the Building Committee of which Councilman Kern is chairman. The projected buildings would supply accommodations for all the patients in the city suffering from contagious diseases under normal conditions.

To construct the buildings will cost about \$25,000, and if a site other than the one in the Chavez Ravine road, where the antiquated and dilapidated city pesthouse is located, can be secured an additional expense will be incurred. Such a sum of money cannot be set apart from the ordinary revenues of the city, and a bond issue is inevitable if the present Council succeeds in providing the much-needed hospital.

Of great interest to the owners of hotels, lodging-houses and apartment buildings is the movement about to be inaugurated for the construction of the detention or isolation hospital. Yesterday there were seven places under quarantine for smallpox, 149 for scarlet fever and twenty-two for diphtheria. Many of the cases of scarlet fever are in hotels, lodging-houses and flats.

hale very objectionable odors. One indignant citizen called at the Health Office yesterday and demanded that some action be taken to drain the water from a gravel pit on Cherry street, between Pico and Sixteenth streets. He declared that the health of the neighborhood was threatened by the existence of this pool of filthy, stagnant water. For some years Health Officer Powers has tried to secure the passage of a law by the State Legislature, similar to laws which obtain in Eastern States, whereby the health department might abate a nuisance and have the cost of the work placed on the tax rolls against the property. At present there is no such law, and owing to the depleted state of the city treasury money for pumping water from pools is not readily forthcoming.

Complaints of Gutter. Proprietor A. C. Billicke of the Holmbeck Hotel has made formal complaint to the Council of the condition of the gutters on Spring and Second streets near the hotel. He asks that the gutters be repaired, and offers to bear one-half of the expense.

Another Park Inspection. A number of Councilmen visited Griffith Park yesterday afternoon as the guests of Col. G. J. Griffith. A fully was provided which left the City Hall about 1 o'clock.

## AT THE COURT HOUSE.

## MELROSE'S LAWYERS.

## BADGERED PROSECUTOR.

## MAJ. DONNELL HAD TRYING EXPERIENCE MAKING AN ARGUMENT.

Arguments for the Melrose Defense Will Begin Today—Enormous Crowds Jammed into the Court Room to Hear Deputy District Attorney's Talk.

Deputy District Attorney Donnell had a strenuous time trying to make an argument in the Melrose murder trial yesterday.

Attorneys for the defense interrupted and abused him. With the evident purpose of destroying the effect of his remarks to the jury, Melrose's lawyers constantly interrupted him, usually in an insulting manner. It hardly gave to the proceedings that air of impressive solemnity supposed to characterize the trial of a man for his life.

Congressman McLachlan distinguished himself by practically calling Maj. Donnell a liar, in open court.

Maj. Donnell had made some statement in regard to Melrose showing the wheelbarrow along just before the shooting.

McLachlan jumped to his feet and said that there was no such evidence, and that Maj. Donnell was wilfully misstating the facts. He said he wasn't

doing as a prosecutor should. One of the attorneys for the prosecution, however, claimed that the evidence can be found in the transcript as the major stated it.

Again, while the major was arguing, he alluded to the testimony of Mrs. Selma Swanson of Acton, who was one of the strongest witnesses for the prosecution, during the course of the trial. Luther Brown, one of the attorneys for the defense, had called her a Swedish barmaid. Maj. Donnell spoke of this.

"She is the lady," he said, "that was spoken of by the learned counsel as a Swedish barmaid."

One of his associates tried to quiet him, as the court was not a rough house shop. Brown, like a bad little boy, yelled defiantly again. "Well, she is."

Another time, Maj. Donnell stated a proposition of law of which Mr. Rogers did not approve. Rogers stopped the argument and entered an exception. He said that was not the law.

Maj. Donnell: Well, either you are mistaken or I am.

Rogers: You have been mistaken so many times, Major, you've got the habit.

Maj. Donnell attempted to defend his position, but Rogers said: "Oh, yes, still the major got through his argument."

He spoke before a great jam of people. The room was so crowded the sides must have bulged out. Not only was every seat taken, even inside the bar, but every inch of available standing room was filled. Learned counsel, seated at the bar were sitting on the edge of the platform at the feet of the court clerk.

Up in the gallery, where the jurors sleep in coats after the case has been finally submitted, crowds of women were sitting perched on the edge of the blankets and peering over the rail.

Melrose sat at the table with his lawyers. He seemed deeply concerned, but not particularly worried.

His wife sat directly behind him at the rail in a picture hat and a heavy veil. When a newspaper artist began to sketch her, she held a paper in front of her face, and at last left the courtroom.

Maj. Donnell concluded his argument late in the afternoon. He will be followed by the opening argument for the defense, which will probably be made by Mr. McLachlan.

## HILL FIGHT COMING.

## DEPOSITIONS ARRIVING.

Every mail is bringing in depositions from the East to be used in the coming battle between Gertrude Driggs, the counterfeiter's wife, and the Charles family of Massachusetts for the fortune of Charles Hill, the old miser who died here.

His case will be tried next month. Some of the depositions have been opened. One opened yesterday was that of William H. Skerry of Warren, Mass., who was a boyhood friend of Hill. In the deposition he gives details which tend to support the dates in the mysterious diary kept in cypher by Hill.

Another club woman, Mrs. Haule, of Edgerton, Wis., tells how she was cured of irregularities and uterine trouble, terrible pains and backache by Lydia E. Pinkham's Vegetable Compound.

"A while ago my health began to fall because of female troubles. The doctor did not help me. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles, and I felt sure that it would not harm me at any rate to give it a trial."

"I was certainly glad to find that within a week I felt much better, the terrible pains in my back and side were beginning to ease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend Vegetable Compound."—MRS. The demurrer against the application for guardianship came up again before Justice Wilbur yesterday. It was not heard, as the attorneys wanted more time in which to file legal authorities.

be ignored in the administration of the city government. At the same time, by refusing to take any action until officially notified of the status of the men in question, ample opportunity was given the Mayor and other commissioners to rectify any mistakes made in the interpretation of the charter.

"You may be sure that this discussion of civil service will be settled without any break between the commissions," declared Mayor Snyder yesterday. "None of the commissions desire to exceed their authority and it has not been the purpose of anyone in authority to overlook the Civil Service Commission."

"As a matter of fact, I never knew anything about the dismissal of any of the men except Power, the chain-gang guard. He was dismissed at my request, and at the time I thought it unnecessary to notify the Civil Service Commission that he had been dropped from the service, because of the peculiar wording of the charter. I am now inclined to think that I may have been mistaken. At Power was under probation, the head of the police department could dismiss him by assigning reasons therefor to the Civil Service Commission in writing, even granting that the Civil Service covers the dismissal of policemen, and if any mistake was made at all, it was failing to notify the board of the action taken."

"In the same way the Police Commission promoted Walter Auble from detective to captain and made other changes in the force under the impression that it was unnecessary to consult the Civil Service Commission. If an examination of these men will take it before being confirmed in their new positions and the Police Commission will not stand in the way, Capt. Auble, I understand, would be very glad to take the examination as that would effectually establish his position in the service."

"Eventually I believe the Police and Fire Commissions will settle all discussions by placing the departments entirely and absolutely under civil-service rules, whether demanded by the charter or not. I am in favor of this course and believe the other commissioners to think likewise. I would much prefer that the Civil Service Commission should hear the charges against policemen."

the patients could be removed to a suitable isolation hospital it would not be necessary to quarantine these places. Necessarily the quarantine is not very strict and the spread of disease could be stopped in many cases if a hospital was at the command of the city health department.

Under the existing laws it is optional with the patient to stay at home or go to a hospital. With such ramshackle buildings as the city now possesses few patients can be induced to go to the smallpox hospital and many physicians advise against removal to a place where the accommodations are so meager. In many ways a first-class isolation hospital is deemed by the medical fraternity to be an absolute essential to the welfare of the city.

# "A New Woman."

Disease makes many a woman prematurely old. Dark-rimmed eyes, hollow cheeks and wasted form are accompanied by listlessness and loss of ambition. Home duties are a weariness, and social pleasures have no attraction.

One of the commonest expressions of women cured by Dr. Pierce's Favorite Prescription is this: "It has made a new woman of me." There's a world of meaning in the words. It means the sparkle brought back to the eyes; the complexion tinted with the rosy hue of healthy blood; the form rounded out anew in graceful curves; the whole body radiant with health.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well. It dries debilitating drains, heals inflammation and ulceration and cures female weakness. It makes new women of those prematurely aged by disease.

Dr. Pierce's medicines are the best I have ever used. I write Mrs. C. Nelson, Marion Co., Oregon. "My health was badly run down when I came to you. My limbs were cold and my head was constantly dizzy. I was so nervous that the least thing would startle me almost into convulsions. I had palpitation of the heart so bad that I could scarcely walk sometimes. I felt utterly discouraged, but bottles of Dr. Pierce's Favorite Prescription and one of 'Golden Medical Discovery' made a new woman out of me."

Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for it in cloth binding. Address Dr. R. V. Pierce, No. 663 Main Street, Buffalo, N. Y.

Power Company, Central Power and Equipment Company, Pumping Stations Division Oil Company, Detroit-Beaumont, Palestine-Beaumont, Sun Company, Advance Oil Company, Queen City, Queen of Waco, Drummers, Adams, Buckeye, Ground Floor, Manhattan, Borealis and Buffalo.

All pumping rigs, derricks and pipe line equipments were destroyed. Extensive losses were sustained by owners of drilling rigs, among whom were H. B. Ford, Cartwright Oil Company, John Marikham and J. W. Ennis. Mr. Ennis estimates his loss at \$15,000, and others at from \$1000 to \$4000. The Texas, Sun, London Oil and Pipe Line, Coffey, Higgins, and other companies lost heavily through damage to their pipe lines. The Heywood tract was saved only after hard work.

IN PENNSYLVANIA. GROWING DEMAND FOR OIL. (BY DIRECT WIRE TO THE TIMES.) CLEVELAND, April 15.—[Exclusive Dispatch.] In an article upon the condition in the oil fields, the Commercial Bulletin says:

"The report of pipe lines handling the Pennsylvania grades of oil for March, shows a run of 2,701,579 barrels. The deliveries were 2,732,821 barrels, showing that stocks were drawn upon to the extent of 30,941 barrels. This is a full argument, but not so strong as might be. The strongest argument for higher prices for Pennsylvania oil is found in the fact that the gross stock held in storage is only 5,500,000 barrels. At the rate of consumption, as shown by the month's deliveries, this represents but two months' supply. Allowing for the amount of oil taken to fill the pipe lines, the amount available for use at the refineries must necessarily be much less than two months' supply. The increase in the average daily production of the Pennsylvania oils for the first three months of the year was only 224 barrels over the average daily production of a corresponding period of last year.

"The average shipments for the first three months of the present year were practically a stand-off with the average for the corresponding period of the previous year, the difference being only 443 barrels daily in favor of 1902. This shows practically nothing of significance, although there is a suspicion of evidence of the desire to husband the supply."

THEY BELIEVE HE LIED. Pasadena Negro Reports a Hold-up Which upon Investigation has the Appearance of Being a Fake.

Harry La Halper, colored, whose home is in Pasadena, appeared at the detectives' office yesterday morning and told a thrilling story of how he had been held up and robbed the night before by two highwaymen. According to his story, he was walking along Vine street about 10:30 o'clock Tuesday night, when two white men approached him, covered him with guns, and while one of them held him by the throat the other searched him, taking \$118, some valuable papers and a cheap ring. He declared that the ring and later been pawned at a restaurant by one of the robbers, and was certain that their identity could be discovered.

Detectives Henderson and Baker were assigned to the case, and when they went to the restaurant to which the colored man directed them, they learned that he had pawned his ring there and later had borrowed money from another negro to redeem it. They also found a number of persons who had been with the Pasadena man during the night, but La Halper could not recognize any of them. A score of persons were found who had seen and been with the man, and all of them testified that he had been drinking heavily. He could not explain where he had secured \$118 or any other amount of money, but finally admitted that he had been drinking and did not remember where he had been or with whom. The officers therefore dropped the case, believing that the reported hold-up was a fake.

This valley is the main gateway to Pasadena and neighboring suburbs. The phenomenal growth and development of Highland Park and Garvanza following the electric line to Pasadena, will be excelled by the valley, this being a more direct route and with a lesser grade. Mr. Huntington has not only given the valley the best car service, but has backed his faith with large realty purchases.

This property is located just beyond Eastlake Park, on the new broad-gauge, double-track short line to Pasadena, Monrovia, Alhambra, and San Gabriel, the finest electric line in the West. Seven minute service, and the property is only twelve minutes from the center of the city. Cars will later run through to the splendid Huntington Building, 6th and Main Sts.

## A Remarkable Distribution of Edgar Allan Poe's Famous Works at a Price Which Touches the Pocket Lightly. Exclusively for Times Readers.

### The Suggestion of a Newspaper Man

Poe was one of the few writers of the very first rank that America has produced. His genius—in its own field—is unrivaled and unapproached. He created a school of fiction and poetry that has had many imitators, but none that even the most fulsome courtesy can compare with him in depth of feeling, in effective style, and in his weird and mystic trend of thought. He is one of the MOST INTERESTING OF WRITERS, for he had the knack—or genius—of writing stories of such power that the average reader cannot lay one of them aside, after he has once started, until he has read to the end. No collection of books owned by an American IS COMPLETE WITHOUT A SET OF POE—for not only does his transcendent genius justify his place in any library, but as his is one of the three or four great names that have made American literature known in every land of culture, to read his works should be an act of duty somewhat akin to patriotism.

### A PARTY OF NEWSPAPER MEN

meeting in the rare in-between-hours that sometimes come into the life of a newspaper man, were talking of the extraordinary success of some of the modern writers of fiction, when the question arose as to who in the last century was the greatest writer of them all. The name of Edgar Allan Poe was unanimously selected, not only as the peer of his contemporaries but the prince of short story writers of all time.

Poe was the inventor of a school of fiction—startling and weird. His tales of mystery, imagination and humor are the greatest ever written. Poe's works have met with universal popularity not only with the English-speaking peoples of the world but by foreign, and his wonderful tales have been translated into many languages.

Poe was a born newspaper man, and it was at once decided to arrange for a large memorial edition of his works. A unique set to be made to order after newspaper men's ideas, for the thousands of readers of a series of leading daily newspapers. There was absolutely no element of risk at this time of an extraordinary Poe revival when great publishing houses were making special editions as high as \$250.00 a set of 10 volumes. By making allotments to all the large cities and one large daily paper giving unusual publicity to the offer it was comparatively easy to arrange for

## A First Edition of a Million Copies

A style was decided upon that was dainty and unique and an order was given for the making of new plates. The LOS ANGELES TIMES gladly accepted the appointment to act as the medium of publicity for Los Angeles and to make the distribution, feeling that it would be giving its thousands of readers a rare bargain in the works of an American classic author that should certainly find a place in every home library, more especially at the newspaper price.

## How to Secure the Low Price

The ten volumes will be ready on the dates given in the calendar and will be supplied to holders of vouchers only.  
**IN CLOTH BINDING and illustrated at 20 cents each with one voucher.**  
See instructions to city and out-of-town readers below.

## His Famous Works

Now published for the first time at a popular price will be known for all time as the RICHMOND EDITION. Mr. William H. Rogers, an earnest student of Poe, consented to write a memoir for the first volume, and it is without question the first really unbiased memoir of the great author. First editions of Poe's works are held at fabulous prices. A copy of "TAMERLANE" recently sold for \$2400. It is published in Volume 10 of this new RICHMOND EDITION for the little price of 20 cents.

## This Delightful Set of His Works

is printed from new type-set plates made especially for this edition. The size of type is long primer, which is easy reading and restful to the eyes. The paper is splendid, made to order for this edition. This cloth-bound edition is illustrated and is recommended for permanent and library use. THE RICHMOND EDITION is ideal and a marvel of fine bookmaking at the price—a price which touches the pocket very lightly.

### What Was Said When He Lived:

"It would be hard to find a living author who had displayed such varied power. As a critic, he has shown so superior an ability that we cannot but hope that he will collect his essays of this kind and give them a more durable form. They would be a very valuable contribution to our literature, and would fully justify all we have said in his praise. We could refer to many others of his poems than those we have quoted, to prove that he is the possessor of a pure and original vein. His tales and essays have equally shown him a master in prose. Mr. Poe has that indescribable something which men have agreed to call genius."  
—James Russell Lowell.

"Poe is the most remarkable poet the United States has produced."  
—Alfred Tennyson.

"A man richly endowed with genius! His prose is remarkably vigorous, direct, and yet affluent; and his verse has a particular charm of melody, an atmosphere of true poetry about it which is very winning."  
—Henry W. Longfellow.

"His imagery was from the world's which no mortal can see but with the vision of genius."  
—R. W. Griswold.

"This vivid writing!—this power which is felt!"  
—Elizabeth Barrett Browning.

"A writer worthy of high and honorable place among the leading creative minds of the age."  
—Philip Pendleton Cooke.

"It was in the world of mind that he was king."  
—George R. Graham.

### What Is Said Today:

"Poe forms a type alone. . . His place is secure as the most brilliant lyricist, and, on the whole, as the most original poet America has produced."  
—Frederic Lawrence Knowles, in the Boston Transcript.

"His stories are veritable masterpieces, and have been, if not actually the prototypes, at least the most ingenious and effective models of a whole genre of literature."  
—Frederic W. H. Myers in "World's Best Literature."

"The keener appreciation in Europe of literature as a fine art is no doubt the main reason why Poe is looked upon over there as our most noteworthy poet. Poe certainly had a more consummate art than any other American singer."  
—John Burroughs, in Century Magazine.

"The short exquisite music, subtle and simple, and somber and sweet, of Edgar Poe."  
—A. C. Swinburne.

"Distinctively and in a unique sense, the artist in our literature. His work holds first place."  
—Hamilton Wright Mable.

"Poe stands as much alone among prose writers as Salvador Rosa among painters."  
—London Spectator.

"On the roll of our literature Poe's name is inscribed with the few foremost, and in the world at large his genius is established as valid among all men."  
—George E. Woodberry.

"He was great in his genius, unhappy in his life, wretched in his death, but in his fame he is immortal."  
—Memorial Tablet in the New York Museum of Art.

**EVENTS IN SOCIETY.**

An engagement that will occasion the liveliest interest was announced yesterday—that of Miss Anna Fay, daughter of John J. Fay, and Walter R. Leeds. Miss Fay is a charming and accomplished young woman, who has had many admirers and has been exceedingly popular among the young people of the city. Her father is a president of the Pullman Oil Company, president of the Water Board, a man of large wealth and business prominence. The Fay mansion at Adams street and Grand avenue being one of the finest in the city. Mr. Leeds is a prosperous young lawyer and secretary of the Republican County Central Committee. There will be a April shower of felicitations for both the happy ones. The bride-to-be returned last spring from a tour of Europe. One of the prettiest compliments that the young woman received was paid Miss Fay yesterday when a lady remarked: "The girls like her as much as the young men do, and she is quite as popular in the extremely select little sewing box to which she belongs as at the dancing parties, where her card is always full."

The date for the wedding is not yet named, but—well, June has always been a popular month with brides.

Greaves-Alles.

The residence of Mr. and Mrs. Fred Lind Alles of Westlake avenue was the scene last night of a charmingly appointed wedding, the principals being their only daughter, Miss Clara Lavina, and Benjamin Franklin Greaves. Only a few intimate friends had been invited to witness the ceremony, which was performed at 6 o'clock by Rev. Dr. George Thomas Downing, rector of the Christ Episcopal Church, the father of the bride giving her into the keeping of the groom. The attendants were Miss Augustus Alles and the bride's brother, L. Chester Alles.

The rooms on the lower floor open into each other through arched doorways, and were all decorated with the same overhead effect. Length of white satin ribbon and asparagus plumose sprang from the fringes to the central chandeliers, forming dainty open canopies, while the airy vine, combined with trailing sprays of Lady Banksia roses, was caught in spiraling knots of pictures and mirrors, hung to picture moldings, outlined the arches and swined around the pillar where they met, and flower shades of white tulle were over the incandescent lights. The ceremony took place in the large reception hall, where potted plants were topped by tulle, roses and ribbon, from a canopy, from the center of which depended two wedding bells of strange blossoms. An orchestra rendered the "Bridal Chorus" for the entrance of the bride and her suite, and played softly during the interchange of vows. The bride followed the informal congratulations, when about thirty were seated at the rose-decked tables. Roses were also banked on buffet and serving table.

The bride's dress was of white crepe meteor, trimmed with work of silk seed pearls and velvet ribbon. The skirt, cut with a long court train, had a deep yoke of the ribbon interlaced with pearls and caught together with hand work of spider webs in silk. The shirred and tucked bodice was finished with a high yoke, like that of the skirt, and the long sleeves were shirred to correspond down to the elbow, velvet and pearls forming the lower part. A long tulle veil, that fell to the foot of the train, partly concealing the charming toilette, was fastened with natural orange blossoms. No bouquet was carried by the bride, who held a prayer book in her

gloved hands during the marriage service. The bridesmaid's dress was of white point d'esprit over pink silk, and her bouquet was of pink sweet peas. Mrs. Alles wore a handsome gown of cream crepe trimmed with tulle and Honiton lace. The reception was largely attended, nearly 300 invitations having been issued.

Pastorius-Hogland.

A marriage that is of local interest, although the contracting parties claim residence in the East, took place at the Church of the Angels yesterday noon, when Miss Elizabeth Hogland of Hazleton, Pa., and Horace Evans Pastorius of Colorado Springs, Colo., were united in wedlock by the chaplain, Rev. W. H. Doggett. The bride, who has spent the winter in Southern California with her mother, Mrs. W. J. Hogland, and was formerly a resident of Colorado Springs, and it was during a recent visit to a brother in that city that the romance began which preceded yesterday's marriage.

The bride was greeted as she stepped from the carriage by her two cousins, the Misses Helen and Lillian Grant, who spread a mat of roses over her pathway to the church door. She entered on the arm of her father, preceded by the groom's sister, Mrs. Edmund Hayden of Santa Barbara, who walked alone as matron of honor. Sharpless Pastorius of Colorado Springs attended his brother's best man. Prof. Wilde at the organ rendered first the Lohengrin Bridal Chorus, and then Mendelssohn's "Wedding March." Before and after the service.

The bride, a beautiful blonde, had on a traveling suit of dark blue camel's hair cheviot, and her white hat was relieved by a knot of pink roses. She wore the groom's gift, a crescent of diamonds and pearls, and carried a bouquet of lilies of the valley. The matron of honor was in a handsome gown of green tulle, trimmed with all-over lace, and carried La France roses. There were about fifty intimate friends present. Mr. and Mrs. Pastorius will spend a short time in Santa Barbara en route to San Francisco, from which port they will sail April 23 for Honolulu. They will reside in Colorado Springs on their return, where Mr. Pastorius is engaged in the practice of law.

Talbert-Sperling.

The ceremony which united in wedlock W. Turley Talbert and Miss Ida A. Sperling took place yesterday afternoon at the study of Rev. Dr. George Thomas Downing. The marriage was witnessed only by members of the two families. The bride wore a traveling suit of light gray, with hat and gloves to match.

The young people have a large circle of friends in the city. Mr. Talbert is connected with the auditing department of the Santa P.V. Railway, having been with the company for several years. Many handsome presents were received, among which was a beautiful cut-glass bowl, from the boys of the Santa Fe. Mr. and Mrs. Talbert left on the afternoon train for a short trip, and will be at home after August 1 in their new house now under construction at Oak Hill Park.

**Under-price Basement Shoe Sale.**

20,000 Pairs New Footwear Below Wholesals Cost.

There are two reasons why we have a basement shoe department. The first is that our upstairs department is not large enough to properly display all the stock; second by having a department for the lower or popular priced footwear, can the more easily show its distinctiveness. In this under-price department are to be found nothing but shoes of best manufacture, all in good style but shoes which were purchased at price concessions from the manufacturer or wholesaler, thus enabling us to underprice every other store in Los Angeles for the same grades of shoes. Beginning Thursday we inaugurate a sale of thousands of pairs of new and stylish footwear that will make it a good proposition for you to purchase shoes not only for yourself but entire family for you can save from one-fourth to one-third over regular.

**"Nothing More To Pay"**

That's what he said and further, he (Mr. Ebe Walter, of Clarksville, Del.) said this:

The feature that I particularly like about my policy is that the longer I live the more I get, and that during the balance of my life there is nothing more for me to pay. (From Wilmington (Del.) News, Nov. 21, 1902.)

The fact is that a Fifteen-Year Distribution Policy, issued by The Mutual Life Insurance Company of New York is a very interesting document. A yearly dividend—increasing each year after the policy is paid up—a sum paid the estate, and options which make it almost like handling so much cash and yet keeping it for your heirs at the same time.

In writing for information about a policy of this kind, state what you would like to receive in cash at the end of limited payment period, amount you would like your beneficiary to receive in event of your death, and give your age.

**BRO-MAN-GEL-ON**

The Pure Dessert Jelly!

None that's as good—None can be made better.

One package Bro-man-gel-on—one pint of boiling water—that's all. Result—a perfect dessert jelly. All grocers sell Bro-man-gel-on.

ty-fourth street. The beautiful flowers were arranged all about the dining-room in artistic profusion, being massed on the buffet and over the fireplace, filling to overflowing the baskets on the wall—they seemed everywhere. They were scattered thickly over the damask covering of the long oval table and their bright faces looked up from a dainty arrangement down the center of the cloth. Pansies done in water colors decorated the place cards, and here and there were hand-painted dishes showing the same design. A bright little guessing contest on the articles in a ladies work basket resulted in the awarding of the first prize to Mrs. Ellis, while Miss Lorden, secured the second. Mrs. Percy's guests were Miss Mabel Lorden, Mrs. F. M. Lyon, Mrs. Florence Brown, Mrs. Fred Beaudreart, Mrs. W. A. Avery, Mrs. Walter Tyler, Mrs. Clarence Cook, Mrs. F. H. Ellis, Mrs. O. O. Edwards, Mrs. Charles Edson.

**Afternoon Reception.**  
Mrs. W. G. Kerckhoff was the hostess yesterday afternoon at a largely attended "at home" given at her residence on South Figueroa street. Several hundred ladies called during the reception hours, which were from 4 o'clock to 6, the hostess being assisted by Mrs. M. G. Eshman, Mrs. C. E. Kuster, Mrs. Elsie Kerckhoff, Mrs. H. H. Kerckhoff, Mrs. J. Manfar of Chicago, Mrs. R. L. Craig, Mrs. I. N. Van Nuy, Mrs. S. S. Hubbell, Mrs. A. C. Balch, Mrs. W. E. Dunn, Mrs. H. C. McIlveny, Mrs. D. G. Stephens, bit.

**For Northern Guests.**  
Mrs. J. G. Donovan gave a daintily appointed card party yesterday afternoon at her home on Pasadena avenue, in honor of her visiting sisters, Mrs. Lucien A. Gamahli of San Francisco and Mrs. S. D. Seaman of Aurora, Ill. About thirty-five ladies were asked to meet these charming strangers, and were entertained with a catchy little card game called "Easter rabbit." An artistic arrangement of

cherry blossoms, wild mustard and golden poppies, beautified the rooms, and all the other details of decorations were in the coloring of these blossoms. The successful players were rewarded with prizes of dainty pieces of sterling silverware, while the consolation prizes, as well as the tally cards were suggestive of the Easter season. The Misses Louise and Julia Ganahl, sisters of the hostess, and Mrs. M. T. Collins assisted in entertaining.
